

Some things defy explanation. Most bike models fit neatly within certain categories targeted to certain people—but not the Brewster. This is an urban assault bike with a go-anywhere attitude. With massive 4” tires, an aggressive stance, an 8-speed drivetrain and disc brakes, this bike is unlike anything else on the road. Wherever you want to ride, the Brewster is ready to take you there. Available in two frame sizes, 17” and 19”, but only in the one colour that matters: black. Ask for forgiveness, not permission.
